Serial No.: 10/806,006) PATENT
Filed: March 22, 2004) Attorney Docket
) LOR-102.2 DIV I
) (9720/91644)
For: IMMUNOGENIC HBc CHIMER)
PARTICLES HAVING ENHANCED)
STABILITY) Group Art No.
) 1648
Examiner: Bo Peng)

SUPPLEMENTAL INFORMATION
DISCLOSURE STATEMENT

Mail Stop RCE
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This Information Disclosure Statement supplements the Information Disclosure Statement already on file for this application. Additional art that may be material to the prosecution of this application has come to the attention of the applicants by receipt of the International Search Report. A copy of which is enclosed.

Pursuant to 37 C.F.R. §1.97, a list of the non-redundant document (document D1) that may be material to the examination of this application from the Search Report that were inadvertently omitted from previous Information Disclosure Statements are provided on the attached Form PTO-1449. The enclosed art only includes the non-US patent-related disclosures, inasmuch as the US Patent and published US

application art need not be physically supplied. However, should physical copies of the patent-related art be requested, counsel will provide it.

No inferences should be drawn that the attached list represents a comprehensive investigation, or that any material disclosed is equivalent to the subject invention. In addition, none of the documents that have publication dates prior to the priority date of the above application anticipate the invention in this application.

The cited documents disclose numerous specific features. There has been no attempt to list each and every feature disclosed by each document. The Examiner is requested to review the documents and determine the extent of the materiality of the document disclosures with respect to the present invention.

The discussion of any art and the citation of any document herein is not to be construed as an admission that the art or document disclosure is necessarily within the invention field of endeavor, that the art or document disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that the art or document disclosure is otherwise necessarily prior art as defined by the patent law with respect to the instant invention and application.

Also, there is reserved the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosures of the art and documents recited herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

Serial No.: 10/806,006

The recitation herein of the art and documents is not to be construed as an assertion that more pertinent art could not possibly be in existence.

No further fee or petition is believed to be necessary. However, should any further fee be needed, please charge our Deposit Account No. 23-0920, and deem this paper to be the required petition.

The Examiner is requested to phone the undersigned should any questions arise that can be dealt with over the phone to expedite this prosecution.

Respectfully submitted,

By 
Edward P. Gamson, Reg. No. 29,381
